

NEW TEST TO ORDER CORONAVIRUS USING MEDITECH C/S – Go Live Monday, May 4th,2020

*** DO NOT ORDER THE MIC – VIRC TEST FOR CORONAVIRUS ANY LONGER - USE THIS ONE INSTEAD – GO LIVE is MONDAY, MAY 4th, 2020

For Order Entry in Meditech:

- Click on **Enter/Edit** Orders
- Enter in the patients account number – click **OK** if it is the correct patient
- **Fill in the ordering provider – WATSONGB (Gaynor Watson-Creed MD) for all COVID-19 swabs across the province at PRIMARY assessment sites. Put the actual ordering provider for all other areas that the COVID test is ordered for.**
- In the Category field put in **MIC (Microbiology)**
- In the Procedure field put in **COVID (NOVEL CORONAVIRUS (COVID-19))**
- Priority Defaults to **R (routine)**
- In the date field put in **T** for today and in the time field **N** for now
- Collected by other than Lab – **Y (yes)** – so you will get your label at your local printer
- Isolation – put in the type of isolation the patient is under – **droplet/contact**
- Diagnosis and Reason for test - **?Coronavirus**
- Antibiotics? – No, or list the antibiotic the person is on
- What is the Source? – VIR will default in when you get to that field
- Please specify specimen source – where you took the swabs from – Pick one of the sources from the list
- When all filled in, press **F12** to file this and you should then get your label

The screenshot shows the Meditech C/S Order Entry interface for patient **Cbr, Cindy** (60/F). The patient's account number is **AD0000790/18/CB00354113**, and their physical characteristics are **162.56 cm/79.827 kg 1.85 m2**. The admission date is **ADM IN 05/03/19**. The attending physician is **ABELRD** (ABEL, RACHEL D MB, BS CCFP). The ordering provider is **WATSONGB** (WATSON-CREED, GAYNOR B MD). The source is set to **Written**.

Category	*Procedure	Procedure Name	*Priority	Quantity	*Date	Time	Series
1	MIC	COVID	NOVEL CORONAVIR...	R	T+	28/04	0709
2							
3							
4
