

ORDERING CORONAVIRUS USING MEDITECH C/S

For Order Entry in Meditech:

- Click on **Enter/Edit** Orders
- Enter in the patients account number – click **OK** if it is the correct patient
- **Fill in the ordering provider – STRANGRA (ROBERT A STRANG MD FRCPC) for all COVID-19 swabs across the province at PRIMARY assessment sites. Put the actual ordering provider for all other areas that the COVID test is ordered for. DO NOT PUT CLINICAL NURSE AS ORDERING OR ATTENDING PROVIDER**
- In the Category field put in **LAB** (Laboratory)
- In the Procedure field put in **COVID** (NOVEL CORONAVIRUS (COVID 19))
- For **Eastern Zone ONLY** put in **COVST** (COVID-19)
- Priority Defaults to **R** (routine)
- In the date field put in **T** for today and in the time field **N** for now
- Collected by other than Lab – **Y** (yes) – so you will get your label at your local printer
- Isolation – put in the type of isolation the patient is under – **droplet/contact**
- Please specify specimen source – where you took the swab from – Pick one of the sources from the list
- When all filled in, press **F12** to file this and you should then get your label

(Ordering for **Western and Northern Zones** – The Category is **LAB** and the procedure is **COVID**)

The screenshot displays the Meditech C/S Order Entry interface. The main form shows the following details:
