

Have you completed your Report and Support Screening?

WHAT IS IT?

The Report and Support screening helps:

- 1** Identify people within 5 days of testing positive who are eligible for and may benefit from COVID-19 medications and treatments to reduce the risk of severe illness and hospitalization.
- 2** Identify people that might be at risk of severe illness for Public Health follow-up.

WHEN SHOULD I COMPLETE IT?

Complete after you test positive on a rapid test, or when you book a PCR test. If your PCR is negative, your information will be deleted.

WHERE CAN I FIND IT?

Complete the form as accurately as possible online at c19hc.nshealth.ca/self-report, or by phone at 1-833-797-7772.

COVID-19 treatments do not benefit everyone. You will only receive a phone call for further assessment if you are eligible.
